YEARS 5 IN 2026**

TutorsSA.com.au

Dear Parents/Caregivers,

We are glad to inform you that Tutors SA will be starting the highly sought-after focused scholarship and special entry preparation course for students currently in school years 5 in 2026, targeting 2027 February ACER® Scholarship Tests, Ignite Entry Exams, STEM Pathways/Accelerator Entry Tests as well as November 2026 AAS Scholarship Examination.

Now it is the time to register and enrol your son/daughter in this course. **This course is for Students in Year 5 in 2026, entering Year 7 in 2028.**

Please note that spaces are highly limited and students are selected and grouped based on a selection test. Prior registration is compulsory for the selection test.

Choosing Tutors SA for your child's preparation in ACER® Scholarship, Ignite, and STEM Pathways significantly boosts their success rate. With a proven track record of excellence, our courses are designed to excel students in competitive entry exams.

Our highly qualified teachers and tutors are committed to bringing out the best in your child, providing personalised mentorship and a supportive learning environment to foster academic achievement.

As we continuously strive for innovation and adaptability in our teaching methods, we remain dedicated to partnering with parents in navigating their child's educational journey, ensuring they are well-prepared and confident for the challenges of high school and beyond.

WHAT ARE THESE SCHOLARSHIP AND ENTRY AND TESTS?

The ACER® Scholarship Tests consist of a series of academic ability tests used to select students for the award of a scholarship. Independent schools around Australia choose a testing date which best suits their schools' needs.

The Ignite program is offered in 3 schools in South Australia including Glenunga International High School. The Ignite program focuses on Gifted and Talented students by offering accelerated learning programs from year 7 onwards.

The STEM (Pathways) programs focus on pushing curious minds to investigate Science, Mathematics, and Technology and learn to think critically, imagine creatively, and be ready for the jobs of the future.

AAS Scholarship Examination is a competitive academic assessment used by selected independent schools to award academic scholarships. It evaluates students' abilities in core areas such as Mathematics, English, and reasoning skills to identify high-achieving candidates.

WHO IS THIS TEST FOR?

We are supporting ACER® Secondary Level – 1, for students entering Year 7 in 2028. Accordingly, this program is designed for students currently in Year 5 in 2026. In South Australia, most ACER®, Ignite, and STEM entry examinations are typically held in February, with the next anticipated testing period in February 2027 for 2028 school entry, while the AAS Scholarship Examination is generally conducted in November 2026.

WHAT ARE OUR GOALS IN PREPARING STUDENTS FOR THE ACER®,IGNITE & STEM SCHOLARSHIP TESTS?

To improve their core academic skills in Maths and English that are essential for the scholarship tests and entrance exams.

- **Maths** – Essential year 5 maths knowledge, numerical reasoning, abstract reasoning, spatial reasoning, pattern recognition, identification of relationships, and problem solving.
- **English** – Creative writing, persuasive writing, reading comprehension and interpretation, and humanities.

To teach and train students in examination techniques, time management skills, and better exam finishing skills.

Improve students' confidence to work under-pressure and exam conditions for best results.

WHAT ARE THE COURSE DETAILS AND STRUCTURE?

Tutors SA implements a well-planned and highly organised approach in this specialised scholarship preparation program, with the aim of providing students with the most effective and efficient mentoring and preparation. Our panel of highly qualified and experienced teachers and tutors teach, test and challenge students on various aspects that are relevant to the test. Every week there is a range of questions, exercises and/or practice tests to help students to improve their standard and followed by regular homework and mock exams.

We also offer FREE Homework Help Sessions to our enrolled students.

TESTIMONIAL

"I liked the personal attention and guidance, weekly homework tasks and monthly tests provided by Tutors SA. I believe that the personal attention given to each student with the carefully designed course and model papers covering the critical areas being tested in IGNITE were most helpful for my child to succeed in this exam. The challenging questions were pushing her to explore more possibilities and to improve her critical thinking. The structured homework material given was helpful in improving her organisation and time management skills and it kept her motivated and engaged. The monthly tests and parent meetings were also helpful to evaluate which level my child was at and the areas she had to improve. We are so grateful to Don for guiding us to select this course and to both Don and Kathy for their dedicated mentoring key to the success of my child."

Hybrid Tuition

State of the art Technology at Tutors SA

In order to enhance the continuity of student learning, and to make our services accessible to all students through a **Hybrid Tuition Model**, we have fitted each of our classrooms with a high-definition webcam, Wacom drawing pad, and high-resolution touch screen capabilities.

Furthermore, we have recently installed high-quality 4K resolution overhead conference cameras in each of our classrooms. Whether a student joins the centre face to face, or online through our learning platform **Spark***, we want to give all of our students the best opportunity to learn. Through these conference cameras, online students are able to view the lesson in high definition just like face-to-face students, they can interact with the tutors in live lessons, and even access our resources through **Spark***.
